- **StarGambling Nevada Roulette**

Our company produces the STAR GAMBLING NEVADA Roulette, an elegant and beautiful designed Automated Roulette. It uses the latest technology for a better game play and for more reliability.

The Wheel has a special design, and it comes in 4 variants (Standard Nickel plated, Standard Gold Plated, Prestige Nickel Plated and Prestige Gold Plated).

The furniture has a special design and is made of MDF, and it can be delivered in many colors, depending on the buyer's choice.

The sustaining pilars of the upper part are hand carved in solid wood, and the ashtrays are made of marble, that gives an extra style to the entire artwork.

The keyboards are created to suit the player needs, and because of the use use of Push Buttons it is more reliable than other Keyboards on the market.

The Roulette uses Flat Screen CRT 17" Monitors for a better image quality.

Thanks to the integrated UPS system, the users can play at least 2 games in case of a power failure.

The owner(s) of the roulette can receive statistics on the mobile phone, thanks to the integrated SMS System

## • Wheel

The Wheel has a special design, and it comes in 4 variants (Standard Nickel plated, Standard Gold Plated, Prestige Nickel Plated and Prestige Gold Plated).

### Main characteristics:

- massive mechanism made with utmost precision
- high quality frame made of massive wood
- chambers done with tolerance of  $\pm 0.025$  mm
- metal surfaces finishing quality is at N4 grade (machine polished)
- all metal surfaces are galvanized according to the customer's wishes (nickel or gold)
- plexiglass fields
- engraved numbers
- The wheel is balanced in 5 grams tolerance

Both models (Classic and HighClass) are offered in nickel-plated or ionized version in gold colour.

## • Components

### Keyboards

There are 8 keyboards, for 8 individual players. The user can place his bets using the soft-touch keyboards.

The keyboards are developed entirely by our company and they were built from durable materials. They were especially created for this purpose, tested and designed for long reliability. We guarantee for our keyboards at least 1 year of good functioning.

The surface of the keyboard is extremely easy to clean, it is scratch resistant. Thanks to the protective layer, no matter how many times it was used, the printed numbers will not fade in time. In case of surface damage, in normal operating conditions, our company offers free replacement of surface material. They are perfectly integrated into the player's table, to allow the player to place bets more comfortable.

## Spot Lights

The spot lights are integrated into solid wood ornaments, giving a special look to the entire top part. They have Halogen Gas light bulbs, allowing them to produce light for many hours, without any breaks. They produce a fine light, to offer the player the sensation of intimacy which results a better gameplay, and more satisfied clients. The replacement of the light bulbs can be made very easy, by removing the golden cover.

## Monitors

The player can view it's current bets, the last extracted balls, and more game information on the 17" monitors. The monitors are brand new Flat Screen 17" LG CRT Monitors. They offer impressive image quality, thanks to the flat screen technology. The monitors are integrated into the Furniture, and covered with a layer of 30% ionized protective glass. That feature allows the player to watch the screen for many hours without getting his eyes tired because of the screen. This, results in a more comfortable gameplay, and more pleased users.

## Ashtray

The roulette has four ashtrays made of marble, that gives the entire system a more elegant appearance. The ashtrays can be removed by unscrewing them from their holders. This is a practical feature of the roulette, which solves 2 problems, the extra elegance and the need for an ashtray.

- **Software**

The software is designed to meet all the requirements of the roulette game. It is heavily tested in real game play conditions, to ensure non stop game. Our development team works on future releases to increase the game experience and the visual appeal.

For your convenience we implemented extra features like real-time SMS messages, to keep you informed with the current status of your roulette equipment, and the Multilingual support, extensible to any language.
